

The Kramer all-rounder

The all-wheel steered "5065", formerly known as "650", is a 5 series model and represents compactness and manoeuvrability. The bucket volume of 0.65 m³ to 1.1 m³, as well as the series-standard equipped Kramer quickhitch plate, enable unbeatable flexibility for every application. The one-piece chassis and time-tested and proven all-wheel steering ensure maximum stability and manoeuvrability on uneven ground. Especially for roads - and GaLaBau, the machine is in the position to effortlessly deal with a stone pallet - a particularity in this size class.

- Constant payload: Due to the one-piece chassis, the vehicle has an unchangeable vehicle length which enables a constant high payload
- Flexible application: Bucket volume from 0.65m³ to 1.1m³ dependent on material density
- Safety: The comfortable and intuitive operation of all of the functions generates safety, even for beginner operators
- Exhaust gas stage V: The exhaust gas aftertreatment is carried out by DOC + DPF
